WHY CHOOSE ADVANCE FENESTRATION?

Since 2012, we've been designing, manufacturing and supplying world-class door and window solutions for new-build and renovation construction projects across South Africa and beyond. We're the only full-service quality aluminium company in the region able to undertake all aspects of your project inhouse. Our complete range of windows and doors covers every price point from entry-level to high-end, and is backed by technical expertise and exceptional aftersales service.

Our extensive stockholding of components, spares and aluminium profiles enables us to offer minimal lead times, while our manufacturing locations in Gauteng and Kwa-Zulu Natal mean that your dream windows and doors are now closer than ever. By any measure – security, style, thermal management and lasting quality – Advance Fenestration solutions are the finest doors and windows you can install in your property. Residential or commercial, bespoke or large-scale, trust Advance Fenestration to be clearly different – and distinctly better.

ADVANCE FENESTRATION OUR FULL PRODUCT RANGE

Choose the quality aluminium windows and doors that best match your desired style and budget:

- European Systems Range
- Frameless Range
- Standard Range
- Affordable Range

There is no substitute for experience.

EUROPEAN SYSTEMS RANGE

Designed in Europe to demanding architectural specifications; manufactured and extruded locally in South Africa to reduce lead times. By using higher grade aluminium, our European Systems Range of aluminium windows and door frames can support wider and taller panels. With larger apertures and heavier panes of glass, the architectural possibilities are endless.

- Elegant aesthetics
- Wide range of component options, including handles and locks

Enhanced security

- Easily integrated with security mesh doors and fly screens
- Multi-point locking system for greater peace of mind

Custom specifications

- Can be glazed in the factory or onsite, depending on the required installation method
- Seamless floor tracks with no difference in level between interior and exterior flooring
- Built-in water drainage channels
- Supports glass panels up to 350kg in weight
- Double glazing options – better sun protection, light diffusion and insulation

Elegance

- Matching components
- QUALICOAT-certified powder coating
- Full spectrum colour matching

FRAMELESS RANGE

Our Frameless Range offers a contemporary look and feel, and allows for improved views while letting in more light. Frameless elements from Advance Fenestration can be customised to meet any project requirement, with multiple configurations available. The absence of frames makes for a faster installation process with minimum disruption.

- Glass-only designs
- Easily customised
- Rapid installation
- Modern styles
- Comprehensive offering:
 - Glass balustrades (top-mount, side-mount and channel-mount)
 - Frameless showers (interior and exterior)
 - Frameless stacking doors
 - Frameless sliding doors

STANDARD RANGE

Designed to meet the needs of both residential and commercial construction projects, our Standard Range is locally sourced and manufactured using quality Wispeco-style extrusions.

- Locally made for reduced lead times
- Sustainably sourced aluminium
- Single- and double-glazed applications
- Comprehensive offering:
 - Casement top-hung windows
 - Casement side-hung windows
 - Sliding folding doors
 - Single- and double-hinge doors
 - Palace sliding doors and windows
 - Casement fixed frames

AFFORDABLE RANGE

Our Affordable Range offers exceptional value for large-scale construction projects, without compromising on quality. Multiple configurations are available to meet the needs of the affordable housing sector and specialist applications including student accommodation blocks.

- Value and quality
- Designed to meet local requirements
- Comprehensive offering:
 - Lite casement top-hung windows
 - Lite casement side-hung windows
 - Lite casement fixed frames
 - Single- and double-hinge doors
 - Patio sliding doors and windows
